PROFESSIONAL SUMMARY

IT Support Technician and AI Automation Specialist with hands-on experience in technical customer support, helpdesk operations, network troubleshooting, and AI-powered workflow automation. Permanently absorbed at Clickatell following the successful completion of a CAPACITI learnership and since promoted to Enterprise Support Agent, providing escalation-level and frontline technical support for SMS and API messaging services. Holder of a Diploma in ICT Support Services and an extensive portfolio of certifications from Google, IBM, AWS, Microsoft, Cisco, DeepLearning.AI, Stanford, Duke, and Johns Hopkins covering IT support, networking, cloud computing, AI, machine learning, and data science. Skilled at translating complex technical issues into clear customer communication and building automation pipelines using n8n, Make, OpenAI, and Airtable. Passionate about continuous learning, operational efficiency, and delivering outstanding user experiences.

PROFESSIONAL EXPERIENCE

Enterprise Support Agent | Clickatell, Cape Town, South Africa

September 2026 - Present

- Serve as the after-hours escalation point for support agents and Technical Account Managers in Clickatell's 24/7/365 environment, covering enterprise customers nominated by Sales leadership.
- Monitor APIs, supplier notices, and product platforms for round-the-clock issue identification, ensuring maximum service availability and performance.
- Notify affected customers of confirmed incidents within 30 minutes and keep them updated through to resolution, communicating to internal and external stakeholders throughout.
- Maintain and exceed customer SLAs and internal OLAs, adhering to tiered response-time targets.
- Provision customer network services on core equipment and resolve advanced technical queries using specialist knowledge and diagnostic techniques.
- Act as Point of Contact for Escalations (POCE), coordinating queue ownership, monitoring coverage, and escalation routing during assigned shifts, and guide and train support agents.
- Leverage approved AI-assisted tooling such as Rovo for ticket triage, response drafting, and unified knowledge search to improve speed, accuracy, and SLA compliance.

Customer Support Agent | Clickatell, Cape Town, South Africa

April 2026 - September 2026

- Provide frontline customer support for SMS and API messaging services, troubleshooting delivery failures using system logs, delivery reports, and error codes.
- Support enterprise and developer customers with platform usage, API configuration, sender ID registration, short codes, and IP whitelisting requirements.
- Escalate complex technical and network-related issues to internal Technical, Network Operations, and Vendor teams with detailed diagnostics and supporting evidence.
- Communicate clearly and professionally with customers by translating technical issues into easy-to-understand explanations, progress updates, and resolutions.
- Log, track, and document customer incidents and resolutions in Jira ticketing system to ensure SLA compliance and reduce repeat support requests.

Technical Support Associate | CAPACITI, Cape Town, South Africa

April 2025 – March 2026

- Completed industry-recognised certifications on Coursera covering IT support, networking, cloud computing, AI, and data science.
- Provided technical support with a focus on troubleshooting hardware, software, and networking issues.

- Built real-world AI automation workflows using n8n, Make, OpenAI, Cohere, and Airtable during an AI Bootcamp, including an HR AI Agent CV screening pipeline and a full-cycle booking automation system.
- Developed a Sentiment Analysis Dashboard using Streamlit and Hugging Face, and a YouTube data pipeline integrating the YouTube Data API with n8n and Flask.
- Applied Python programming, data analysis, and generative AI concepts in hands-on bootcamp projects.

Sales Generator | Footgear PTY LTD, Port Elizabeth CBD, South Africa

November 2024 - December 2024

- Engaged with customers to identify needs and promote relevant products, consistently achieving sales targets.
- Developed and implemented effective sales strategies to maximise revenue generation.
- Collaborated with marketing teams to design promotional campaigns that drove in-store sales.

Computer Lab Assistant | Walter Sisulu University, East London, South Africa

February 2023 - December 2023

- Set up and maintained computer systems for lab users, ensuring proper hardware installation and cable management.
- Provided daily technical support to students, troubleshooting hardware and software issues.
- Referred major hardware and software problems to senior technicians and oversaw computer systems daily.

EDUCATION

Diploma in ICT Support Services | Walter Sisulu University, East London, South Africa

March 2021 - May 2025

CERTIFICATIONS

IT Support and Networking

- Google IT Support Professional Certificate courses: Technical Support Fundamentals, The Bits and Bytes of Computer Networking, Operating Systems and You, System Administration and IT Infrastructure Services, IT Security: Defense Against the Digital Dark Arts, Sound the Alarm: Detection and Response
- Cisco Networking Academy: Networking Devices and Initial Configuration, Introduction to Modern AI
- IBM: Introduction to Hardware and Operating Systems, Technical Support (IT) Case Studies and Capstone

AI, Machine Learning and Data Science

- DeepLearning.AI / Stanford: Advanced Learning Algorithms, Supervised Machine Learning: Regression and Classification, Unsupervised Learning, Recommenders and Reinforcement Learning, AI For Everyone, Generative AI with Large Language Models (AWS)
- Google Cloud: Introduction to Generative AI, Introduction to Responsible AI
- Microsoft: Artificial Intelligence on Microsoft Azure
- IBM: Introduction to Artificial Intelligence, Building AI-Powered Chatbots Without Programming, Python for Data Science, AI and Development
- Intel: AI Essentials
- Duke University: Human Factors in AI, Machine Learning Foundations for Product Managers, Managing Machine Learning Projects
- Johns Hopkins University: Trustworthy AI: Managing Bias, Ethics, and Accountability
- Arizona State University: AI Foundations: Prompt Engineering with ChatGPT
- DeepLearning.AI: AI and Climate Change, AI and Disaster Management, AI and Public Health

Cloud and Data

- AWS: Cloud Fundamentals (via Coursera)

- Microsoft: Power BI (Career Boost, Microsoft Certified Trainer)
- IBM: Python for Data Science, AI and Development

Professional Development

- Vanderbilt University: ChatGPT + Zapier: Easy Inbox Intelligence for Smarter Email
- University of Maryland: Managing Conflicts with Cultural and Emotional Intelligence
- Macquarie University: Negotiation Skills: Negotiate and Resolve Conflict
- University of Pennsylvania: Positive Psychology: Resilience Skills
- Georgia Institute of Technology: Write Professional Emails in English
- UCI: Work Smarter, Not Harder: Time Management for Personal and Professional Productivity
- IBM: Developing Interpersonal Skills, Solving Problems with Creative and Critical Thinking
- Arizona State University: Emotional Intelligence, Grit and Growth Mindset
- CAPACITI: Professional Development

TECHNICAL SKILLS

- IT Support and Helpdesk Operations: End-user support, hardware and software troubleshooting, ticketing systems (Jira), SLA management, ITIL framework, incident escalation
- Networking: TCP/IP, DNS, DHCP, VPN, Wi-Fi configuration, network troubleshooting, Cisco networking fundamentals
- Operating Systems: Windows 10/11, Linux (Ubuntu), basic system administration
- AI and Automation: n8n, Make (Integromat), OpenAI API, Cohere, Hugging Face, LangChain concepts, prompt engineering, RAG basics, sentiment analysis
- Cloud Platforms: AWS, Google Cloud, Microsoft Azure (fundamentals)
- Programming and Data: Python (basic), data analysis, data visualisation, Power BI, Streamlit
- Customer Support Tools: Jira, API troubleshooting, SMS/messaging platform support, CRM basics
- Microsoft Office Suite: Word, Excel, PowerPoint, Outlook

SOFT SKILLS

- Customer service orientation, empathy, active listening, conflict resolution, written and verbal communication, critical thinking, problem-solving, attention to detail, time management, adaptability, team collaboration, self-motivation

LANGUAGES

- English: C2 Proficiency
- IsiXhosa: Native Speaker
